WIC 50TH ANNIVERSARY
Partner Toolkit
MAY
Embracing Maternal Wellness and Addressing Disparities

This year, we recognize an incredible milestone in the evolution of maternal and child health care — the 50th anniversary of the Women, Infants, and Children (WIC) program. Since the opening of the first clinic in 1974, WIC has been an unwavering beacon of support, committed to improving public health outcomes for women, infants, and children.

How You Can Help

As we reflect on this remarkable journey, the National WIC Association (NWA) invites you to join us in honoring the countless stories of strength, resilience, and compassion that have defined WIC's legacy. Beginning in January 2024, we will publish a monthly partner toolkit and video recognizing an important theme, accomplishment, or milestone of the WIC program. We encourage you to share these toolkit resources widely and join us in showcasing the decades-long positive impact of WIC. Please use the following content for your April social media posts. Here's to 50 years of empowering families, building healthier communities, and nurturing the bright possibilities that lie ahead!

May: Maternal Health

In May, WIC recognizes the importance of supporting expecting and new mothers, particularly those facing disparities in healthcare access and outcomes. WIC stands as a beacon of support, addressing the multifaceted challenges of pregnancy-related health, food insecurities, and breastfeeding challenges.

In this video, we explore the critical role that WIC plays in promoting maternal health, showcasing its evolution to address the complex needs of diverse families.

Celebrate Maternal Health using these resources provided below:

"And when women can participate in the program early on in their pregnancy, it can really empower them to make choices around infant feeding, around their own health that are gonna set them and their baby up for success."

Dr. Georgia Machell, INTERIM PRESIDENT AND CEO NATIONAL WIC ASSOCIATION

"And, you know, in WIC, we're all about babies, and we're all about kids, but we're also all about moms. And we really need to help moms and make sure that mom's health is maintained through pregnancy and after pregnancy too."

Peggy Trouba, WIC NEBRASKA DIRECTOR
